

Girl Safety Deputy Brings Home Idea for Similar Corps Here

An idea that originated 'way back in Kansas this summer was brought back to California and Torrance recently by nine-year-old Donna Dean Mize, daughter of Mr. and Mrs. Herbert Mize of 1228 1/2 Arlington avenue. Donna Dean returned home here a full-fledged special deputy of Wyandotte county under Sheriff Frank Zimmer.

Donna Dean was a visitor at her grandfather's house this summer and he, W. R. Bule, of Turner, took her back to her home here. While she was in Kansas the little girl became one of the hundreds of boys and girls in Wyandotte county who were presented special safety deputy badges and commissions by Sheriff Zimmer.

When she was ready to leave for Torrance, Donna Dean asked her grandfather what she should do with her badge and commission.

"Take them home with you," he advised, "and maybe you can start the idea there."

But here in Torrance the WPA supplies men for crossing guards so she has not had an opportunity to start her safety corps of youngsters. But Donna Dean and her mother have filed the idea for future reference and if the time comes when boys and girls are needed they can offer the experience of good old Wyandotte county as guide.

More than 2,000 boys and girls in that county were enrolled in the safety patrol the sheriff sponsored. They were pledged to observe safety rules and regulations, to help others learn them and to do all in their power to prevent accidents.

Army Rejects Keystone Drain Plan, Report

Army engineers have killed hopes that the Federal government will sponsor a Laguna Dominguez (Nigger Slough) drainage project as a national defense measure.

A committee chairman reported to this effect at the Harbor District Chambers of Commerce meeting late last week in Compton.

In a letter to Herbert Legg, WPA Southern California administrator, Col. L. F. Kelton, chief of district army engineers, contended that the Mines field section of the proposed project is amply provided with drainage facilities from a preparedness angle and that the remainder of the project has no direct connection with national defense, Finkle said.

The chambers committee endorsed the county regional planning commission's plan for beach acquisition, and named E. D. Seward, secretary of the San Pedro Chamber of Commerce, sergeant-at-arms to enforce provisions of its constitution banning distribution of political literature at its meetings.

Seward's appointment followed his complaint that circulators of political dodgers were invading the chambers' meetings.

Townsend Club Activities

By Vernon F. Glidden

Another delicious dinner was enjoyed by a large number of Townsends at the Men's Bible Class building last Friday evening. A fine delegation was present from the Gardena club. We also welcomed several of our former members who have moved out of Torrance during the last few months.

At the business session encouraging reports of our work were received, and an interesting account of activities at Grants Pass, Oregon, was given by one of our members who is a visitor here.

Mr. Fretz of Gardena delighted the audience with a splendid address concerning our privileges and opportunities as neighbors, and citizens, showing how we can do much to make our country a better place in which to live. Games and a social time brought an end to a very pleasant evening.

Tomorrow evening we will be entertained by the Swingers. These young people know how to entertain with good music. Old time dances will form a part of the evening's entertainment.

MODEL PLANE TOO FAST
MONTREY, Cal. (U.P.)—Sixteen-year-old Victor Wolff built a \$20 gas-power model airplane that flew so well that he is offering a \$5 reward to anyone who happens to find it and will bring it back.

25 YEARS' EXPERIENCE
DID YOU KNOW
That your nervous system controls your health?
That mechanical defects of the body interfere with the normal workings of your nerve system?
That statistics show that Chiropractic ranks 2 1/2 times better than medical treatment in the mentally deranged?
That Chiropractors do not oppose surgery when it is necessary?
That over 275 institutions of all kinds are using Chiropractic Science as a curative agent?
Then why should the general public hesitate to use this curative service for themselves, as it cures where others fail?
